

HOW CAN FINGERPRO ID HELP YOU?

ELECTRONIC DOCUMENTATION

Sends fingerprints electronically.

IMAGES ARE STORED

Never reprint a previously submitted record; images are stored in the database and can be replicated and resubmitted when necessary for subsequent checks.

COMPLIANT AND CERTIFIED

Transmissions are ANSI/NIST compliant. FingerPro ID Scanning system is FBI and State Certified.

Why AD&S, Inc. should be your **ONLY** Choice

- ◆ AD&S is a Mississippi corporation serving the biometric needs of customers in 25 states along with D.C. and Chile.
- ◆ AD&S software/hardware is certified by both the state and the FBI.
- ◆ AD&S has over 400 livescans installed and operative in Mississippi alone!
- ◆ AD&S has been in business for over 29 years.
- ◆ AD&S is trusted by state government agencies, airlines, schools, police departments and sheriff's offices.
- ◆ AD&S has over 3,000 customers.
- ◆ AD&S responds to service issues quickly and in most cases can resolve problems without necessitating an onsite visit.
- ◆ AD&S provides mobile solutions.
- ◆ AD&S has a 94% rating from Dun & Bradstreet for response and support to customers.

About Our Company

AD&S has been in the software development business for more than 29 years. Our software applications are used by state and federal agencies, law enforcement agencies, school districts, DOD contractors, airlines, healthcare/childcare facilities and fingerprint service providers.

You can't lose with FingerPro ID!

YOUR COMPLETE SATISFACTION IS OUR MAIN OBJECTIVE!

AD&S offers FingerPro ID, a turnkey system that handles the electronic transmission of fingerprints to FDLE/ACHA. We can customize systems to fit your needs.

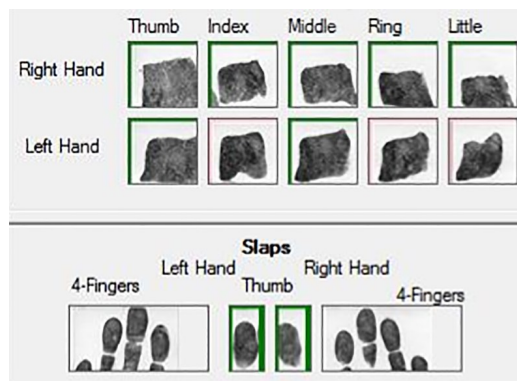

Fingerprints can be captured by livescan and digitized for transmission through our software for a virtually seamless process from the beginning to the end result.

Our software examines the Livescan prints to insure that they meet the requirements mandated by the FBI.

Our FingerPro ID software and Live Scans are FBI certified.

FingerPro ID Software Features

- ◇ Full history of every record
- ◇ Re-submit fingerprints without new scans
- ◇ Secure access to the system
- ◇ Powerful searching and filtering functions
- ◇ Fast textual and image data input
- ◇ Electronic, paperless submission of prints
- ◇ Multiple workstation locations
- ◇ Livescan capable
- ◇ Already integrated with the EOS Rebel T5 Canon Camera

FEATURED HARDWARE

Greenbit DactyScan

The DactyScan84c is a compact 10-prints and rolls Livescan at 500 dpi certified by the FBI. With up to 27 frames per second for 4-slaps and up to 25 frames per second for rolled prints acquisition, the DactyScan84c is unique in terms of acquisition speed. This scanner is highly user-friendly.

EOS Rebel T5 Canon Camera

The EOS Rebel T5 Canon Camera features a 18.0 Megapixel CMOS (APS-C) sensor, DIGIC 5 Image Processor, high-speed continuous shooting, exceptional autofocus performance and Hybrid CMOS AF.

Our FingerPro ID software can work with several cameras after some extra steps. But, unlike other cameras, this camera works smoothly with our FingerPro ID software to take photos to transmit to ACHA.

ProTip: Use the GreenBit DactyScan, EOS Rebel T5 Canon Camera and FingerPro ID software with our convenient Travel Case for a mobile fingerprinting workstation!
